### Mission Statement

We pride ourselves on providing high quality products and exceptional service which are a result of ongoing product development and manufacturing efficiency improvements. We are committed to providing a safe working environment for our employees together with a high degree of job satisfaction.

### Environmental Policy

Ductair is committed to the preservation of the environment and minimising or reducing adverse environmental impacts of its operations. "We are focused to improve the environmental performance of our activities and to be leaders in best practice environmental management within our industry".

### Company Profile

- Proudly 100% Australian owned & operated
- Over 30 years of manufacturing excellence
- Best practice adopted in all manufacturing processes
- Leading the way in Flexible Duct Technology
- Continuous product development

\*Ductair provides a 20 year warranty for air-conditioning componentry it manufactures on complete systems, installed in residential roof space by qualified tradesperson, covering replacement and/or repair of faulty components, where manufacturing defects have caused a breakdown in materials excluding mechanical parts. Fault must be determined by original retailer/installer & approved by Ductair. Warranty does not cover 'Acts of God' or owner misuse outside of normal use.  
\*\*Refer to damper brochures for warranty conditions.  
050516

# Ductair Energy Smart™ Rating System

Our software analysis will show you exactly how much Ductair Energy Smart™ will improve your homes air conditioning system, reduce your power bills and save greenhouse gas emissions.

What can a Ductair Energy Smart™ system do for you?

## Ductair's Energy Smart™ system is independently tested to dramatically improve ducted reverse cycle air conditioning systems in Australian homes.

What can a Ductair Energy Smart™ System do for you?

Save up to 45% on running costs, and Save up to 45% greenhouse gas emissions on your heating and cooling per year.

Nearly double the capacity of your a/c system.

Virtually eliminates excess peak power demand, ensuring comfort in extreme conditions.

"We recently updated our old ducted air conditioner with a Ductair Energy Smart™ system"

"...this meant we didn't have to replace our old air conditioning unit."

"Now our air conditioning works like a dream, is super quiet and saves us a ton of money."

Take these easy steps to find out just how much you will save with a Ductair Energy Smart™ system in your home.

### step 1

Book a health check on your home air conditioning system today. Contact Ductair direct at [ductair.com.au/contactus](http://ductair.com.au/contactus) or 1800 382 824. Alternatively, visit your local Ductair retail outlet.

### step 2

Choose a Ductair retailer or a trained energy auditor to inspect your ducted reverse cycle air conditioning system. They can provide you with an energy rating for your current A/C system using the very latest Energy Smart™ rating system software.

### step 3

Review your system report with a Ductair retailer and arrange for your old ducted air conditioner to be revitalised with a Ductair Energy Smart™ system.

### step 4

Sit back and enjoy the increased comfort levels, energy savings and reduced running costs of your new Energy Smart™ ducted air conditioning system.

Quality Guaranteed. Products clearly labelled for your peace of mind.

20 Years Parts and Labour Warranty\*
